

Press Release

AutoForm Opens a New Office in Stuttgart and Appoints a New General Manager in Germany

Wilén b. Wollerau, Switzerland, June 24, 2014: AutoForm Engineering GmbH, the leading supplier of software solutions for the sheet metal forming industry, has opened a new office in Stuttgart. This office will enable AutoForm to be closer to its customers in the local region and allow for more efficiency in the supply of AutoForm's full range of products and services. In addition, AutoForm has recently appointed a new General Manager to head its offices in Germany.

AutoForm Engineering Deutschland GmbH in Stuttgart: In addition to its offices in Dortmund, Pfaffenhofen and Ravensburg, AutoForm now has an office in Stuttgart. This new office will offer the full range of AutoForm products and services as well as focus on serving the local region, which covers Germany postal codes 6 and 7 as well as Switzerland. The close proximity to customers provided by this new office in Stuttgart enables AutoForm to better serve customers' needs first hand. AutoForm customers from this region are able to work in close collaboration with experienced and qualified AutoForm specialists, helping them to make faster, safer and more effective decisions by using AutoForm's software solutions in their daily business.

A new General Manager in Germany: AutoForm has appointed a new General Manager, Michael Rembrink, for its offices in Germany. Mr. Rembrink holds a Master's degree in Mechanical Engineering and a Master's degree in Business Administration from IESE Business School in Barcelona. Prior to joining AutoForm, Mr. Rembrink was employed in the operations and management of various leading vendors in the PLM industry. After joining AutoForm Engineering in 2008 as a Consulting Team Manager, Mr. Rembrink moved on to become the General Manager of AutoForm USA. In his new position as the General Manager in Germany, he will be responsible for the successful and continued business growth of AutoForm Engineering Deutschland GmbH.

About AutoForm Engineering GmbH

AutoForm offers software solutions for the die-making and sheet metal forming industries along the entire process chain. With 250 employees dedicated to this field, AutoForm is recognized as the leading provider of software for product manufacturability, tool and material cost calculation, die face design and virtual process optimization. All of the Top 20 automotive OEMs and most of their suppliers have selected AutoForm as their software of choice. Besides its headquarters in Switzerland, AutoForm has offices in Germany, The Netherlands, France, Spain, Italy, USA, Mexico, Brazil, India, China, Japan and Korea. AutoForm is also present through its agents in more than 15 other countries. For detailed information please visit: www.autoform.com
